

# SALTEx MTRX

---

## INTELLIGENT MATRIXED TURF

BECAUSE WE CARE

---

# A giant step ahead. SALTEX MTRX

Saltex achieved the impossible. Being the first who created 3D artificial grass, with matrix technique.  
Better for high-performance sports. Even closer to real grass.

## Excellent tuft bind

Enhanced pile lock due to unique matrix technique and Saltex PU PowerBacking.

## High resilience

100% high resilience fibers with 360° fiber support.

## 100% Latex-free

No latex used in system, improved performance and recyclability.

## Less infill splash

Because of unique MTRX technique, minimal infill splash.

## Uniform playing surface

Applying 100% high quality fibres.

## Less compaction

Free movement of infill due to unique MTRX technique.

## Natural player movement

Less rotational resistance (>15%) because of unique MTRX technique.

## Natural ball reaction

Plays like natural grass.

## 100% recyclable

Due to unique design and chosen materials, Saltex MTRX is 100% recyclable.
